Projects

jazzagain

Developed and maintained the user interface for JazzAgain, an online marketplace for buying and selling second-hand items such as clothes and accessories.

Role : Web Developer

Developed a Nextjs application from scratch, designing the UI, managing state, and integrating APIs.

Uwanxt

This platform enables users to create accounts, set up rooms, add devices, view room history, share rooms with family, and configure devices to Wi-Fi.

Role : App Developer

I enhanced the app's UI and added features like in-app IR devices and family room sharing, also creating Node APIs.

Agroart

A web app for planters and vertical gardens, featuring product details, galleries, case studies, and a contact form.

Role : Mern Developer

Built a web app from scratch with Redux for state management and Node.js for CRUD operations.

Soulpath

Developed and optimized the frontend of SoulPath, an astrology and spiritual guidance platform that connects users with experienced astrologers for personalized readings and astrotalk sessions.

Role : Web Developer

Developed a Nextjs application from scratch, implementing the UI.
